Work Experience

Product Manager & QA Engineer *(12/2019 – Present)*

- Led the research and implementation of in-app analytics, including events characterization, establishing measurable retention KPI's and performing ongoing data mining to extract meaningful growth-related insights.
- Worked constantly on improving our UX with the extent of the onboarding experience and monetization optimization, to align with our unique value proposition.
- Built and executed detailed and well-structured test cases while working closely with the R&D team.

Fraud Analyst *(01/2019 – 11/2019)*

- Detected, investigated, and mitigated fraudulent phishing and malware attacks while performing deep analysis on communication networks.
- Worked most and mainly with International vendors and service suppliers.
